15 ways FMYI helps a production save money

Increase productivity and eliminate wasted time to achieve the best work product:

1. Fast secure access to all files and notes from anywhere via the Internet.
2. No more wasted phone calls - team members just grab what they need.
3. Automatic email alerts can update people with a link to what's new, improving communication and document distribution as well as increasing efficiency,
4. Time/date stamp and file description ensure everyone has the latest version.
5. Emailing big (or small) files back and forth requires waiting - FMYI is super fast!
6. Add accountability when forwarding info by getting an email confirmation.
7. Rather than an email "CC," where people often reply that they got it, in FMYI you know they have it and can find it later (no more "re-sending" documents).
Reduce worry and pain so the team can focus on what's important:

8. Designed like a social network so it's fun to get work done plus workflow features like tasks send automatic reminders so people don't have to stress.
9. Prevent back injuries from lugging around your work - everything is online.
10. Protect your work to prevent a disaster - a computer crash won't stop you.
11. Print/ship less - your team across the room or around the globe has access.

Maintain less technical infrastructure:

12. Replace a shared drive (it only holds files) and Intranet - FMYI does it all better!
13. Reduce the burden on your IT staff - all you need is an Internet connection - FMYI does the maintenance and support for this online system.
14. No technical background is needed to manage FMYI - it's quick to learn how to run it yourself and help is a free call away.
15. Simple, powerful controls make it easy to select exactly who can access what.

Before FMYI

With FMYI

Everything you need, everywhere you go!

Before FMYI   With FMYI

What can FMYI replace?

✓ A local shared drive (network)
✓ An Intranet (posting forms)
✓ Secure document distribution
✓ Storing and organizing emails

✓ Stress of forgetting details
✓ Mobile and out-of-office access to work
✓ Back pain from lugging home paper files
✓ Burden on your IT department

Everything you need, everywhere you go

The answer you've been waiting for...

Co-workers often ask...	We call it:	How FMYI is your solution
I was CC'd, so do I need to respond?	The "CC" problem	Only alert people as needed since others have access.
Is this the latest version of the file?	Very scattered files	Files are time stamped ensuring it's "the one."
Where do I find the details?	Finding project info	Secure, selective access to details online.
Can you email me that?	Wasted phone calls	Those will access can easily grab what they need.
I never got that email.	Improve communication	Provide accountability plus email alerts.
The file is too big to email.	Secure sharing	Upload and provide access to large files.

The FMYI team consists of some of the most brilliant programmers and keenest collaboration specialists ever assembled.
Empowering teams to make a difference to create a positive impact on your people and your budget.
